RE: Niche Money Holes

Dear Fellow Internet Marketer,

The gig is up...!

I've been keeping this under wraps for far too long.

Imagine...A 100% Complete Software That Empowers ANYONE With The Ability To Push A Button And Instantly Generate Hundreds Of 'Search Engine Friendly Websites' That Grow By Themselves, Attract Traffic, And Bring In AdSense, ClickBank, Advertising Revenue And More...All On Complete Auto-Pilot!

Now, does all this talk about "special software" and search engine traffic give you an *eerie sense of dejavous*?

I know you're thinking that what I just said is a bunch of **total B.S.** because...

There are tons of software products that promise you the sun the moon and the earth and yet...***they either work for week and then get banned or they're completely useless.***

Shucks, I'd rather get kicked in the teeth than stuck for another one of these bullshit pieces of software!

-- Do you feel the same way?

Well stick with me for just a minute and you're gonna' see how your days of using useless software are over.

I'm sure you agree that getting **lots of organic search engine traffic** is real pain-in-the-neck!

Right?

It takes tons of content, lots of attention and your hard work and effort to constantly update your pages to **attract the search engines** without giving them a reason to block you.

Search engines are a peculiar beast with special needs that if met...you'll suck in tons of targeted search traffic...BUT if you don't give them what they want...well...

You get "**ZILCH -- NADA**" and you're stuck scratching your head wondering where the heck you went wrong.

I'll tell you how to give them exactly what they want a little later, but first, my psychic abilities (*because I'm a magician as well*) tell me that you're thinking...

"Do it quickly and automatically?"

**Automatically Feed The Search Engines --
HAH You Must Be LYING Jo Han!**

Listen, I know how you feel but the truth of the matter is, that thought would have been a real pie-in-the-sky dream **until today.**

Now, I'm gonna' be **bluntly honest** here okay...

And listen, I'm not tooting my own horn with what I'm about to say to you, but instead, I'm just exposing you to a little bit of **MY** personal reality.

You see, it's a well-known fact that the Mok-ster (*yours truly*) can literally push a button and **profit at will**.

And -

If you've been online for more than a day, then you know that the few guys like me who really **make the lion's-share of internet income** have specialized knowledge and tools.

No, we're not "Gifted" or "Marketing Gods" or something...**We just know little things that most people don't.**

Those little things result in me being able to write my own ticket and buy whatever I feel like buying...whenever I feel like it.

Fact is, I'm not some "internet millionaire guru type" that preaches the **gospel of making money** in theory...

But rather I live it and breathe it everyday of my life and bring in a hefty six-figure monthly income as a result...

Now You Can Do The Same Thing Too!

It may not be obvious to you why I'm so excited about this because hey --

You may not know me from a bar of soap so why should you listen to me right?

The funny thing is, I was once living in an apartment that was so small, **you couldn't even swing a CAT in it!**

Sounds hilarious right?

Come to think of it, **I barely had enough money to buy myself ONE meal a day.** It was pretty pathetic really but, I had already taken a lot of money from my parents to pay for school and when they heard about me wanting to quit school to become an internet marketer and copywriter...**they cut me off!**

-- But thanks to the internet and this little-known piece of software I can literally pump out profitable, traffic magnet

websites that pull in money from at least 3 different sources...and I do it all on complete autopilot! --

Needless to say, easy money makes me a bit frivolous nowadays.

As a matter of fact, to show you just how frivolous I can really be, because of my automated income from using this wickedly effective piece of software...

Look at just a fraction of what I spent on a recent trip to the USA.

\$1700 - 2 Day Hotel Stay In New York

\$1250 - Magic Shop in Boston

\$1986 - Lord And Taylor Boston

\$3496 - Dessert Passage, Aladdin Las Vegas

\$347 - Venetian, Las Vegas

\$4000 - Masamoto Jacket

And none of that includes food and transportation and this was only half of my trip!

"Stop Showing Off Jo Han..."

Now I know you're thinking one of two things right now...

"Why the heck is Jo Han showing off and rubbing it in my face?"

-OR-

"How in the world can Jo Han spend money like that and never work -- it takes serious work to get a website bringing in traffic and income like that...right?"

Listen, I'm not showing off...I wouldn't do that to you...I'm telling you this for a reason.

But instead of giving you a smart-ass answer just to be get your blood pumping, I wanna' really level with you here.

You see, like I said before I didn't have much money or ANY fame before I understood the treasures that the internet holds. The fact of the matter is that I'm no different than you, I'm just an ordinary guy who does extraordinary things!

When I started out things like what I'm about to tell you didn't exist so I had to

learn my lessons the hard way and earn my money the hard way too.

NOT Anymore!

I can just as easily push a button and make as much or more money with my unknown Auto-Income websites than I could by blasting a special offer to my list!

This is a reality to me today but, it wasn't always like that.

It CAN be a reality to you too my friend.

Oh and as for all that dough I spent on my trip...

Heck I can make all that money back in 1 day if I felt like it!

I'm sure I'm not telling you something that you don't already know because it is public knowledge.

What's not publicly-known and rightfully so, is the fact that I have always used **special tools to make my money.**

Most of these tools have been **proprietary software** that I've paid BIG bucks to have customized and created for my own secret use.

Kinda' like **Bruce Wayne a.k.a. The Batman.** Heheh!'

This one is called...

Niche Money Holes

The Most Advanced Auto-Organic Website Creation Tool On The Internet!

Now remember when I said that I would tell you how to give the search engines exactly what they want...?

Well, here are the **7 critical elements** to feeding those hungry little search engine spiders what they love to eat --

7 "MUST Have" Elements To Attracting Search Engine Spiders And Tons Of

Targeted Organic Traffic!

1. **Relevant Content**
2. Constantly Updated Content
3. **"Naturally" Growing Content**
4. Outgoing Links
5. **Inbound Links**
6. Natural (Human Created) Looking Pages
7. **"Human Interactivity"**

Let me explain further...

The first three elements seem practically obvious if you've been online for any length of time but allow me break it down a bit more and explain **how and why content works the way it does.**

As you probably already know...

The Internet is Basically...One Giant Keyword Search Database.

If you want to get your hands on an **endless supply of free "laser-targeted traffic"**...then you must be ready able to supply fresh content that the search engines will crawl and that people are actively searching for.

The first thing the search engine spider looks for is content that is relevant to it's users, the people doing keyword searches like on Google.com.

These are people who are basically "people looking for stuff to buy or answers to questions."

Now if you meet the 7 critical elements then these people are highly likely to find your website but it first starts with relevant and updated content.

SECRET: *Search engines are not concerned with how nice your website is...all they care about is how valuable the information is to their users! All too often you'll find "Butt-Ugly" websites that take most if not all of the top 10 listings for the keyword you are searching for.*

The thing is, there's also a **hidden secret** behind this because it's not just about having the content any more!

You see, in terms of growing content, **Element #3 takes the cake!**

Naturally growing content is quite frankly, the **MOST powerful type of content you can possibly have on your website.**

But, like most things related to getting traffic from the search engines, **its easier said than done...**

Think about it, the search engines want to see that the content on your website is natural...meaning a "human being" came there and updated it at a normal human pace, depending on the size of your company or website traffic.

The problem that pops up is that YOU cannot personally grow your own content, short of posting articles and such types of things yourself.

HOW Do You Build "Naturally" Growing Content Without Working Your Fingers To The Bone?

Well the answer is simple my friend and it's one that is **making literal fortunes for people just like you and I.**

*All you have to do is **have other people grow your content** for you!*

Now I'm not gonna' beat around the bush here.

I'm gonna' tell you that this requires having one of the following:

- A popular as hell blog which requires lots of work.
- A HUGE forum which is even MORE work and attention
- A state-of-the-art software like **Niche Money Holes -- which puts it all on auto-pilot for you!**

As a matter of fact, ALL seven of the "Must Have" elements are heavy work but you can make it all virtual breeze with Niche Money Holes.

Lets cut to the chase so you know just how great this software is and then I'll continue okay...

Here's just a few of the things you can have or do with Niche Money Holes:

- A HUGE ever expanding database of constantly updated private label articles that you can use to build your content sites on the fly.***

- *And a whole lot more...*

Think about it...you can have hundreds of pages bringing you income from all over the web and you do almost nothing!

How Quick and Easily Is It To Create a Site Using Niche Money Holes?

Simply put -- You can choose a list of keywords and input them into Niche Money Holes and it will create a site directory showing a random number of listings per page.

And in only a matter of 2-5 minutes you can have income generating devices that grab money from your future visitors like clockwork!

Here are just a few examples of how Niche Money Holes will make you money with out you lifting a finger...

- **Text-link Advertising** - People pay for their website to be listed (advertised) in specific categories on your website.
- **ClickBank Income:** You can easily add advertisements that are fed directly from Clickbank right to your niche websites and your affiliate ID is on everything.
- **Pay Per Click Advertising:** Website owners can buy traffic from you on a pay per click basis. Just set the price and you get paid automatically through Paypal. This is how Google makes their BIG bucks...why not you too!
- **Affiliate Income:** Cleverly disguise your own product offerings throughout your directory pages and you can easily generate affiliate income from affiliate programs you belong to.
- **Search Engine Pay Per Click Revenue:** Just add

other PPC engines like Search Feed and Revenue Pilot to your Directory Listings so you can earn PPC revenue.

- **Subscriber List Income:** Well if you're gonna get traffic anyway you might as well passively convert some of them into subscribers and send them offers too.

Now you don't have to depend on AdSense alone to make massive, passive income!

FACT: *Google has already started to reduce the amounts it pays out to AdSense publishers and it's only just begun!*

Why?

Well AdSense is attractive to more than just you and I as you already know and just about every Tom, Dick and Harry are wannabe AdSense publishers now. Each one, even if ineffective are reducing the traffic flow to your big payout keyword sites and diluting the amount of income that's possible to earn from the AdSense program itself.

That's a problem for most AdSense publishers but not for you!

Plus...

You Won't Get Sandboxed By Google!

Yes, the best part about this incredible piece of software is that you won't have to worry about getting your websites "sandboxed" by "Big Brother" Google.

So What's The Cost AND The Catch Jo Han?

Okay I'm not going to tip-toe or dance around this one because your time and my time is money so...

The CATCH is that because this is a software that you can literally unlimited niche Auto-Organic portal websites with I don't want it laying around and

available for any old wannabe to putz around with.

So I'm doing TWO major things to it...

1 - I'm locking this baby down and making it a web-based "members only" (and tracked) log-in process.

2 - It is a limited availability product. That means that a definite number of access codes will be sold. **Only 500 member access codes to be exact. This is a You Snooze, You Lose type of deal.**

I don't want my users to be worried about everyone having the same tool...fact is, less than 2% of all buyers will actually use it for its TRUE potential and purpose so don't worry.

As for the Cost...

Well I looked around the ol' net and poked into some of the products that are still around despite their ineffectiveness and danger to your website, then I looked at what others are charging for things that do only a fraction of what this cutting-edge tool does and the number I came up with is **\$197**.

Now normally it's typical that a marketer or product owner tells you they'll discount the damn thing because of some blah blah reason or other but this aint' the case here bucko!

I think that for the 250 articles a month alone this will be far too low a price to charge. And you're getting my Niche Money Holes software too! But, hey I'm known for some of the more controversial type of offers out there and rightfully so.

I want the 'Little Guy' to succeed!

Alright, alright I'll be straight with you -- **I want the 'Little-Guy' to KICK friggin' ass...not just succeed!**

Okay now for some more good news:

Heheh -- This is where the REAL Jo Han Mok comes out to play!

Limited Time Bonus: IF you are one of the first 100 people to purchase Niche Money Holes today, not only will you get the constantly updated articles and other content

to choose from BUT you'll also get an additional 250 article pack to kick-off your site creation!

This offer is set to expire as soon as we reach the 100 mark and that's it!

I'm THAT confident that even without the extra 250 articles this software will sell out in no time at all.

So the main question you should be asking is...

Can you do it? Can you join the ranks of the frivolous spenders or top money-makers? Sure you can and Niche Money Holes give you the ability to do just that!
