Dear Keyword List Builder,

It's like CRACK was in the 80's!

Isn't it?

Crack-Cocaine that is...and Keyword Research is no exception.

Fact is, it's turned into a real addiction epidemic online for many unsuspecting marketers both new and old.

Seems like a pretty sick thing to say but then again, that won't stop me from **exposing the truth!** ;-P

Now bare with me for a bit because you'll understand exactly what I mean when you...

Give Me Just 5 Minutes, And I'll Show You How Whether You're A Wet-Behind-The-Ears Beginner Or Even An Experienced Pro...These Cutting-Edge Keyword Strategies Will Teach You How To *Easily* Find Highly-Profitable Undiscovered Keyword Phrases That *Quickly* Turn Your Keyword Lists Into Virtual Internet Gold!

Now just like CRACK left untold numbers of people insanely addicted to it's chemical high, so has the whole topic of "Keyword Research!"

Yeah I know, just like me -- you probably have all the software and tools and memberships for keyword research and all but, *if they all worked so well...*

WHY do we keep buying them like an addictive drug?

Well, I asked myself that burning question too recently so don't feel so bad.

I'm with ya' on that one cuz' believe me...I did that A LOT in the past!

So after asking myself that question, I quickly discovered that -

I Was Addicted Too...!

The thing is...I'm like most people, maybe even you, when it comes to making money and staying in tune with the latest and greatest thing.

Keeping up with the Jones' is the big thing online...

Or so most people think!

I mean...don't you always want to be the first one to find the hidden keywords and the **potential goldmine** niches that no one else or very few people know about?

Or maybe you're just getting started and you want to build your first keyword list?

PROBLEM #1: Keyword list building software and membership sites build you the same list that it would for anyone else and exposes the same niches and keyword phrases to everyone!

QUESTION: Do you want your competitors to have access to the same information as YOU?

See, I know how frustrated you are with having to find just the right keyword phrases and scraping by to make a buck on the internet.

"You sure as hell don't need your competition having the same keyword list as you because then they can easily beat you to the punch or downright kick your butt! You have to keep ahead of them at all times."

Quite frankly though, I don't care if you're just starting out, making 5-Figures a month or **6-Figures a month** online because I've been there and I can assure you that keeping your competition in the dark is one of the best **strategies for quick success** and will help make you the first guy or gal on the scene for your keyword phrases...

Question: But HOW do you do that?

Answer: You must learn HOW to do exactly what all of these fancy lists, software and websites are supposed to do for you for yourself!

PROBLEM #2: Starting an original keyword list is easy...expanding that list is the tricky part. More like pulling your hair out!

QUESTION: Do you want to learn the strategies to building effective keyword lists that not only sell products like hot-cakes but also have very little competition?

That problem is a BIG one for most people and that is the problem that if solved...could **transform your business** into an overnight sensation!

So being the gung-ho internet marketer that I am...I went out and held an "**unadvertised boot-camp**" that could truly give the attendees some **real insight** into how keyword research was really performed.

Yep...I put it all on video too and then I turned it all into a simple to use, **step-by-step system!**

It's called...

Are you beginning to see how important this **incredible DVD set** really is?

Here's a weird but good example of how this phenomenon works in the real-world.

"Imagine, for a moment, that you are sitting in traffic on the highway and you're headed to your favorite sports team's playoff game.

Now you and everyone on this highway are going to the same game and you're all stuck in this dreadful traffic. Worse yet, you're all after the last of the tickets to the game.

So you start looking to your right and left for a way out, only to discover that you're stuck there without an exit. Frustration begins to overwhelm you as you start realizing that you may miss the first quarter IF you're lucky enough to get in.

People are distracting you from every direction and taking your attention away from the road and confusing you with

signs that say "tickets".

Then, from the corner of your eye you spot a guy, (Me) building a small road that says, "**middle row seats to the game!**"

Hooray!

You cut to the right, pay me for your tickets and off you go to happily take your seats with time to spare and no more stress before the game starts."

Sounds weird but in reality I'll teach you this same principle among many, many others in the **Keyword Research Mastery DVD Set** and get this...

You can quickly use that one principle to funnel free and low cost traffic to your website, make lots of people happy by satisfying their needs and wants, AND rake in **boatloads of cash** as a result!

The truth of the matter is, that keyword research has always been somewhat of a mystery to most people in business online. Sure there are techniques and strategies that anyone can use to profit from the right keywords but...

Finding those perfect keywords is a problem!

Okay, I'm Ready For This Fabian...So What's The Deal?

Well these videos are simply in **"limited supply"** only and as you read every word on this page, these DVDs are being purchased and shipped out internationally.

Let me explain why...

As you'll soon see, these DVDs were made by recording an **elite boot-camp** that I held in Singapore for a small group of internet entrepreneurs there.

These men and women paid top dollar to learn what I taught there. **Close to \$1,000 U.S. Dollars.** And of course it was worth every penny.

So in agreement with them I can sell up to 500 copies of this DVD set and that's it.

Understandably, most of them are not typical internet marketers like you and I.

Many of them have brick-and-mortar businesses that they will be using these keyword research techniques for.

You see, I had to put this information on DVDs for them first because how else is it possible to really learn this **profit boosting information** effectively?

It's obvious that all the e-books in the world aren't really helping all that much so why not get it on video where you can play it over and over again while programming yourself with this knowledge through repetition as well.

So what's it gonna' cost you?

The Price May Knock Your Socks Off!

Here's the thing...I considered charging half of the boot-camp price for this which brought it to about **\$485** but I realized that, although it would be worth it to anyone who got these DVDs and learned from them, it wasn't fair to everyone who genuinely wanted to learn these **kick-butt keyword research strategies** but just didn't have the money.

Hey, I told you I know how hard it really is for you to when you're starting out or working for yourself and don't have too much available funds.

So...I cut the price in half to **\$242.50** and still said, **"HELL NO!"**

I know it's too high for people that are struggling. I then consulted with my fellow marketers and they suggested the conservative price of **\$97** which is the stereo-typical DVD price online but --

I'm not new to this whole thing and my goal is not to make a million bucks with these DVDs...Heck I practice what I preach and **make a nice chunk of change** with the strategies that I show you on these profit-boosting DVDs so why bother trying to squeeze every penny out of someone who honestly needs this **priceless information**.

"So What's The REAL Price Fabian?"

I know, I know, you want to know the price...so I hold on to your seat and let me ask you this...

How would you like these 2 power-packed informational DVDs for the price of a 'cheapie-weepy' e-book?

The REAL price is only a one time payment of **\$47.**

Yes, it's hard to believe but, believe me it's true!

~~\$485.00~~
~~\$242.50~~
Not Even ~~\$97.00~~

 Only **\$47**
