

*You've Probably Heard The Rumors About...*

# **"An Out Of Print 'Underground Marketing Classic' That Turns More Mere Mortals Into Internet Millionaires Than Any Other Book In History!"**

And It Has Nothing To Do With 'Thinking And Growing Rich'. In Fact, The Widespread Abuse Of This Book Has Grown To Be So 'Dangerous', The Author Is Choosing To Keep It Out Of Print!

So Unless You *Read Every Word Of This Letter* To Determine If You 'Qualify', There's Hardly A Chance Of You Ever Laying Hands On A Copy Anymore...

**\*Limited Time Offer!\***

Dear Friend,

**A**re the rumors true?

Is this THE BOOK that teaches everyday people like you to spark an electrifying surge in your cashflow and double, triple or even quadruple your online profits at will?

Well, none other than Robert Allen agrees...

***"Just one idea in this book can make (or save) you millions!"***

Now, before I get too far into this...I want to tell you something up front.

You're going to have an uncontrollable **urge to keep reading this** text because - hidden deep within it are "diamond valued" facts that can transform your online business virtually overnight!

So get ready because - I'm about to give you the inside-scoop about this classic, 'out of print' book.

This book is single-handedly responsible for much of the phenomenal success of many of the most well-known marketers today, even much of my own success.

I can GUARANTEE that if you were to **get this book** in your hands today, flipped through even the first two short chapters...it would not only **increase your income** but change the way you view the world forever!

You see, I'm a little anxious about telling you this because it does have some **VERY deep implications** if it falls into the wrong hands.

**Heck, I hope my website doesn't get shut down by the powers that be...IF you know what I mean!**

"If the idea of being able to generate winning products - or services - at super-fast speeds - regardless of how much money you have, your educational background, your skills OR the amount of equipment you own, is something that appeals to you, then you will fall head-over-heels for this..."

But first, I have to ask you something critically important...

**Have you ever wondered how and why some people online are just so DAMN rich & famous? Or - How the heck can I make that kind of money too?**

If you're anything like I was years ago, then I'm sure you've felt that there just has to be **something you're missing** in your quest for fame and fortune...Right?

Well...suppose you could to learn **the whole truth** about what it takes to really **make money online** that could unlock the gates to your success and **financial freedom** online, offline and:

## **All You Have To Do Is Listen!**

**I definitely know how you feel because...**

You see, some years ago I realized that there were just some **untold truths** that no one would willingly disclose about how to **become famous** and **make millions**.

I kept seeing success story after success story and couldn't understand what the heck these guys had over me, because they really didn't seem all that talented.

So, after I realized just how right I was about this little-known 'cover-up' **I became obsessed** with it and spent the next 2 years of my life researching just what those 'hidden secrets' were.

Then back in 2002 during my quest to find the secret...

I learned that there existed a **system of creating wealth** that allowed seemingly normal individuals to **control other people's money** and 'even their spending habits'!

Best yet...this **amazing system** could be witnessed first-hand by looking closely at every aspect of modern-day business BUT, you first have to understand it.

Shocked and a little uncertain about the waters I was treading in I took a **big leap of faith**...calmed my insides down and started absorbing everything I could about this system.

I quickly discovered that there was a **seriously dangerous** side of this system and just how powerful it really was for creating wealth and just how dangerous it was when placed in the wrong hands...

I was literally shocked into disbelief when I saw how often it was being used by the most successful people and companies in the world to **make millions and even billions** of dollars.

Problem was I also saw it used for some really horrible reasons by bad people.

**Keep in mind though** that as with many things "powerful or dangerous" it serves as an instrument of **both good and evil**.

Once I realized that truth though...I quickly became a student of this system.

Then as if by chance a few years later I discovered the **brighter side** of this system with it's own AMAZING power to create SUPER wealth!

Now after long consideration and getting permission from the man who is a Master of this system himself...

**I'm ready to reveal** the blunt and honest truth about BOTH sides of it to you and...

## **They Are So Simple That They Can EASILY Mislead You and So Powerful That They Can QUICKLY Destroy YOU!**

*(Yikes!)*

Actually...I'm gonna' be completely up front and honest here and admit that I've kept them under wraps for quite some time now...

All while I made HUGE **bankrolls of cash** for myself! ;-P

I'm not really apologizing though.

I'm just being truthful!

I know that all you have to do is a little research on my name and you'll see that I have quite a history online!

**But let's get back to the point...**

Listen... Before I do this I want you to try to **stay calm** because I'm about to give you a **Major WARNING** - Okay!

**WARNING! – Offensive and Factual information will follow this message that will...**

## **“Downright Piss-You-Off And Will Make You Want To Punch Your Computer Screen and Throw It Out The Window!”**

*(Please don't do that...okay?)*

Okay, now that I've warned you let first me tell you about the '**Dangerous Side**' of this system that has made YOU do things in the past that if you really thought about them-

**You would NEVER really have done!**

**It's happened to everyone you know so don't worry, no one's really blaming or judging you...**

Remember, I told you that you may be offended -

## **What if you could learn the ruthlessly-effective techniques that make people do almost anything you want them to...EVEN at their own *Free Will* - ?**

This Dangerous Side in question is responsible for some of THE Worst and THE Best things that have happened in our world for millennia.

Yes it's just like anything that is that powerful in this world...**it can be used for BOTH Good and Evil.**

Now keep ion mind that this Dangerous Side is not all bad but, it has been responsible for some really serious stuff!

**In the past century the dangerous side has been responsible for the following...**

- The rise and fall of *Nazism and the Holocaust* – Hitler mastered just one aspect of it and look what the hell he did! Millions of innocent people died. (The Good-Guys, were better at it though and that's why we won!)
- **Abolishing slavery - Abraham Lincoln - former president of the United States was a *master* at the dangerous side (the light side too) of it and used it to help put and end to slavery in the United States.**
- Mass suicides - Unfortunately cult leaders use this all too often on seemingly intelligent people, and get them to kill themselves in the name of their cause.
- **Drug dealers and users - use it to both make people do whatever they want and get others to use addictive drugs and ruin their lives. (SURE it's up to the person using them but IF they knew about this dangerous part of the force...they might just think twice!)**
- Car accidents - By falling prey to one principle of this system, people get into unnecessary accidents all the time. Very sad - :-(
- **The spread of organized religion - YES nothing else has shaped the human world as much as religion and this system has been behind the the good as well as the bad things that have happened because of religion.**
- Democracy - From the Ancient Greeks to the modern democratic countries of the world...The Dangerous Side of this system has set many people free and created entire countries governments!
- **The success and failures of some of the most well known people in the world!**
- Modern Terrorism – These worthless-slime-bags use the dangerous side to recruit, train and execute their plans of intimidation and killing. (You'll soon understand the principles of what they do and now you can protect yourself, your business and others)
- **Obedience - Yup! WE obey our parents and definitely the LAW and legal authorities because of the Dangerous Side...NOT the bright side! The Dangerous-Side can protect us too...**
- *And there are an UNLIMITED number of other things...*

From that list, I'm sure **you're probably beginning to realize** that this is some really **serious stuff** right?

Well the truth is YES, it is VERY serious stuff -

In fact...it's a force to be reckoned with that must be mastered by **honest and ethical** people who will use it to help themselves AND others to succeed and find satisfaction.

No offense my friend, **you may or may not be the right person for this** but, we'll figure that out later.

## Where did I learn about this system?

You see back in 2002 a good friend and mentor of mine published this...

# **Controversial Book That Changed The Face Of Internet Marketing And Doing Business Online FOREVER!**

And with it - people quickly learned to:

- **Create vast fortunes for themselves online and offline.**
- Achieve World-Expert Status and Fame.
- **Make people do whatever they wanted them to do. (scary stuff aint' it?)**
- Control EVERY aspect of their business with ruthless efficiency!
- **Literally command money into their pockets!**

Now I won't mention any names here but back when I learned about this stuff, I had a "front row seat" and watched undeserving people use it to **become obscenely rich and famous** without much effort.

But don't take my word for it...Here's what some of the internet's elite marketers have said about this man and his now **out-of-print book...**

*(I won't tell you who they are just yet!)*

***"...is the reincarnation of Sun Tzu, adeptly applying those 6th Century Art of War strategies to a 21st century battlefield...the Internet. This man who sells millions of dollars of products online annually and develops sites that get millions of visitors monthly is a tactical genius..."***

***"...candidly shares dozens of hard-won lessons from his years as a US Army officer and Internet entrepreneur...."***

***"This book should be priced at \$100,000 or more because if you can't easily benefit from the tactics..., then you don't deserve to be online in the first place!"***

The thing was...that my friend had only revealed the dangerous side of this system (that was only half) BUT he didn't know what he had done until he saw something he didn't like!

**Imagine his surprise** - when he found out that some readers of this book were using it to gain tremendous success while others

were using it to take advantage of innocent and unsuspecting people!

Oh Boy...Was he ANGRY because...

## **Until THEN There Had Never Really Been Such An Easy-To-Apply and Systemized-Process For Learning The Dangerous-Side And Applying It To the Internet!**

So you can pretty much see why, when he introduced his book...Well...people JUMPED on it like lions on the hunt and many people got so greedy that they used it for the wrong reasons...to unethically **make boatloads of money**.

His sheer disgust for how his information was being misused made him take that book **out of print**, then he went into seclusion and started painstakingly working on his revelation of the **brighter side of this system!**

It was pretty damn sad really...

We're talking about an internationally acclaimed author, a self-made millionaire and THE man who literally **"Invented"** internet marketing as we know it!

**He was so upset that he literally walked away...or so everyone thought!**

So into the foggy-mist he disappeared and no one really thought he'd be back UNTIL...

Recently he resurfaced with a vengeance and in *one fell swoop* he **revealed the Light Side** and...

## **"Retribution Was At Hand!"**

**Needless to Say - I Was Happier Than A Pig In You Know What!**

Heck he was my mentor and I wanted those who misused what he taught to get what they deserved!

The funny thing is...Now everyone thinks they know everything there is to know about both sides but guess what...?

**Here's The Secret:** *"In a recently recorded, 132 minute private interview he confided in me and told me some business building information that will..."*

**"KNOCK Your Socks Off And BLOW Your Mind!"**

Now before I make you more upset by making you wait too much I'm gonna' tell you who this "mystery-man" is but first I want to tell you about the **AMAZING fool-proof system** that was born from these events.

Let me first ask you this though...

**Would you like to easily create mouth-watering demand for super-profitable products?**

**How about create products that virtually sell themselves and a business that markets itself?**

"You'll not only learn *honest straight forward techniques* to get you started easily...BUT you'll also learn the previously *untold trade secrets* needed to make it BIG in this dynamic industry."

Now you can quickly learn them and begin applying them right away.

**If you listen to this Private Audio Consultation carefully, you'll understand why he HATES that fact!**

I played it off really well so he wouldn't notice when he mentioned the reason why, because...
