LIMITED TIME OFFER!

Dear Fellow Wealth Builder,

Listen up very closely because knowing this is critical to your online wealth...

Did you know that there are virtual empires are being built and even destroyed everyday by tiny little text ads that cost only pennies to display.

Yep, It's being done this very second, right under your nose by people just like you and me who are using these tiny-little ads.

Better yet these ads are part of ***"the most POWERFUL advertising force on the planet!"***

You see...most people either don't know much about this or don't really care to admit that they do, because it's **extremely lucrative** and why would they want to give you an advantage over them anyway?

It's no wonder because you can literally **make thousands of dollars in no time** if you learn what I'm about to tell you first.

***HERE'S HOW YOU CAN MAKE MONEY THE EASY WAY
WITHOUT STARTING ANOTHER BUSINESS OR CREATING
ANOTHER PRODUCT!***

See...it's not a risky thing at all but most people who think they can figure it out on their own go about it the wrong way and *piss away all of their money* like water! We're talking hundreds or even thousands of dollars here.

Can you afford that?

But, that's only half the story...because the one thing that anyone who is serious about building their business is looking for is the **right places to advertise** at the least possible cost.

Needless to say that they spend a lot of time searching high and low for the ultimate advertising resource. **But you know what?**

It's not that easy!

Don't worry though because...in the next few moments I'm going to EXPOSE some **pocket bulging advice** and a couple things about making money online that will not only SHOCK you but the truth is...

To be completely and brutally-honest, most of those 'nice' people you know so well, who are making money online and are using this will **never willingly allow YOU to know.**

Reason Why...? Well - you should know (because they do) that with what I'm going to reveal ahead, you can easily dominate any market you choose!

Ask your self this...

'5 Eye-Opening Questions You MUST Answer Before You Can Succeed Online...'

1. Do you want a business that depends on one product or one that owns NO products and earns income from a limitless supply of other people's products yet no one knows quite HOW? (*I know what you're thinking...!*)
2. Do you want full control of your internet traffic or - do you want to leave it up to the search engines to decide how successful you'll become?
3. How can you control how people find you on the search engines?
4. Would you like to pay for advertising and hope that it works or - pay on performance and get results fast?
5. Do you want to attract paying customers or just eyeballs that could care less about your offer?

Answering these questions, has just put you in control of your destiny and has prepared you for the truth revealed below.

Oh - and did I mention to make matters worse, I'm pretty sure that I'm about to lose some so-called 'internet friends' here because I've **never really shared this info with anyone before**...including THEM! *wink, wink, smile!*

Okay so if I were to ask you this one simple yet obviously biased question like...

*"How can you get **low-cost, targeted, and paying customers** to put their hard-earned money into your bank account without SEO, without begging JV partners for traffic and without your own product or service?"*

What exactly would you say?

Whether you know *a lot* about advertising or *NOT* the information in this system will quickly become the **"Punch in the face"** you never thought you'd give to your competitors and *they* never expected to get from YOU - Just like Bruce below...

*"In The Fight To Make **Big Bucks** In A Competitive Market Who Would YOU Rather Be Here?"*

**I Know MY Choice...
The 'Little Guy' CAN Succeed!**

Heheh!

Imagine having cat-like super speed and strength in your online business...**It's pure POWER!**

Let me ask you something and be honest...

Have you ever felt that your income and your knowledge was inadequate?...kinda' like Bruce's opponent O'Hara above?

You know, like you didn't have enough money, knowledge or what it really takes to get what you really want or **satisfy your needs online?**

No really! I'm not messing with ya'...

You see, the reason I'm asking (*two reasons really*) is because I'm pretty disturbed by what's happening on the internet these days.

Geez, I mean there's just so many software products and e-books and acres upon acres of absolute rubbish to sort through in order to find the genuine '**golden-nuggets**' that make you **real money** that you can actually some bread to fill your belly with.

It's turned into a virtual land-fill, filled with piles of rotten crap!

The other reason to be completely honest is because...Yes, **I TOO have felt inadequate...**

But - Before you jump to conclusions and get the wrong idea - let me explain...

A few years ago my friend Fabian told me something that quite frankly **pissed me off** at first!

It all started when...

A bunch of my friends, including Fabian were out having dinner at our favorite authentic Chinese food restaurant.

The food was **mouth-wateringly** good the Chinese wine was even better and we were all having a good ol' time eating and drinking.

See...we were all talking about our businesses and then the topic of powerful business quotes came into the conversation.

As you probably already know, I was the "Senior" internet marketer at the table.

The '**Big Dog**' as you might call it!

So I had a ton to say on the subject.

Then...All of a sudden **Fabian leans over and whispers something in my ear**. At first, after he said it, I even blushed a little. Yeah...ME!

Jokingly I said,

"Dammit' Are You DRUNK Already Fabian? Man I'm Having Dinner Here!"

What he said to me was, **"Hey Jo Han...You know whaaat? I heard a good quote the other day!"**

Then he proceeded to tell me what the quote was.

Right then - he had sparked a thought-fuse that had laid dormant in my mind for many months just waiting to be ignited.

He knew something was up when he saw my face so he pressed me to spill it.

I told him I would wait until tomorrow to tell him when we were well rested and more sober... (wink, wink)

Now, having the mind of an entrepreneur as you know can be quite disturbing at times...and that quote he told me **cracked open a big can of ideas** that I would soon lose hours of sleep over because they were so HUGE!

By realizing that I was missing out on some major money, **I felt my ego shriveling** as I sat at the table...

"Fabian you BASTARD," I thought!

He laughed because he knew just what I was thinking...and so we met up in the afternoon the next day to discuss what the heck I was thinking.

That day was when I finally discovered...

The "Secret" of One of The World's First Billionaires and what he actually meant when he said...

"I'd Rather Own 1% Of 100 Businesses Than 100% Of 1" - J. P. Getty

That was one of the most profound statements I have ever read and one that has powerfully impacted my online business as well as Fabian's!

You see, J.P. knew something that others were not too hip to at the time. He knew that putting all your eggs in one basket and was the ultimate **recipe for disaster!**

So having a small piece of many businesses and controlling that piece was critical to your success and reduces your risk right.

Now I know you're probably already thinking, "*So how the heck can you do that online without selling your soul to the devil to get it Jo Han..?*"

Well -

"Imagine for a moment - what would happen if you could **"legally and ethically"** clone the best salesperson ever, made them work 24 hours a day and 7 days a week, non-stop, they never got sick or needed time off, AND you only paid them pennies while you made **'truck-loads' of money!**"

If that sound's like 'slave-labor' to you or something that's impossible without getting *nabbed by the cops* then you need to **keep reading** because I'm going to reveal how you can actually **make this exact thing happen** just like I have...even without breaking any laws!

Come on...would a billionaire master-mind like J.P. Getty have involved himself with that sort of thing right? **Of course not!** So keep your eyes peeled because the juicy stuff is coming.

You'll have your own sales force of **24 hour sales people** working around the clock to **attract business** so fast that you're going to be adding new products for your arsenal of sales people to sell at warp speed.

My friend...regardless of what you are marketing on the internet, the **one thing you need** to learn about is...

The Online Advertising *BEAST* That Transformed Doing Business On The Internet, Leveled The Playing Field In Your Favor And Why You Don't Even Need A Product To Make Money Online Any More!

Fact is...when I originally learned that, I had no clue whether to jump for joy or run for the hills.

Shucks, I was coming out with product after product online and **making tons of money** selling them so why in the world would I not create products?

PROBLEM - My staff and I had to create and support **ALL** of those products and **although the money is great it still involved a lot of work.**

It made me want to crawl out of my skin until my perspective was changed by J.P. Getty's quote.

Now I know that if you're anything like me...and I'm pretty sure you are -

You want to **work less, make more money and have the financial freedom** it takes to travel the world and do more of the same...absolutely NOTHING - and still make more money!

The sad truth is that most people are fooled into believing that they don't have to put in any effort.

You know what? **That's a BIG crock of utter bullshit!**

After all... Yes, I am notorious for being pretty *lazy and happy-go-lucky*, canoodling around with girls and never wanting to work but I have never told anyone that I got to this stage in my life by not working at first.

I'll admit that, **it was easy work** most of the time but it was still work. Now if you're okay with mostly easy work, a little-tiny pain in the ass by taking a little time to learn how to do it, then I'll tell you more about how.

If not then you should leave right now because you must be a masochist and want to endure another year or more of pain!

What Happened The Next Day...

So the next day as Fabian and I went through the details of what the heck was happening in my mind the night before...

I quickly learned that I could make trailer-loads of money online with an existing advertising network and by applying J.P. Getty's principles.

All I needed to do was make it so that I controlled my traffic (you'll learn about that too) so I could direct it anywhere I choose at any time!

Wow, I mean...there I was in shock that I had unleashed this power and I had no idea that I had even known until then.

Then - while we were still in the 'Holy Crap' this stuff is awesome mode Fabian proceeds to tell me...

"YEAH - Why Should You Create A Bunch Of Niche Products When All You Have To Do To Sell The Best Product Is...Click - Copy - Paste!"

Needless to say by this point I was REALLY feeling a bit 'inadequate' because I was missing out on so much opportunity.

Right then I decided to use this stuff right away for my own business for a while just to see for myself.

Needless to say, it's been tons of **fun and humungous profits** since then but...I always want MORE. Heheh!

So some months ago I cornered Fabian and talked to him about doing an **exclusive coaching program** for budding Singaporean Internet Marketers.

At first he was VERY resistant and -

He Didn't Want To Share These Secrets At All!

I didn't blame him though because we had spent a lot of the money, blood, sweat and tears to learn them over

time.

He insisted, that it was to be kept between him and I and I reluctantly agreed.

Then only days later...by chance - something came over him. (*I thought it was the 'greed monster' although it wasn't but I didn't care...*)

He told me how he was being asked for coaching this topic by some really new internet marketers who he knew were going to go out and buy some of the **usual Fluffery e-books** out there so he told them not to do that and he would see what he could do for them.

That's when...

We Disclosed Our Most Coveted Money-Making Secrets In A Highly Confidential Live Adwords Coaching Event!

I had a good feeling about it and twisted Fabian's arm 'Six Ways To Sunday' to get him to agree to video tape it for physical distribution if we could both finally agree on how much of it to release later.

All you have to do is apply a little elbow grease once and it'll stick with your work for quite some time!

ATTENTION:
Experienced Adwords Advertisers!

You didn't think I would forget about YOU did ya'?

Now if you think that this might be a little too elementary for you...

...You should see the DVDs as well as the components that are included in this one-of-a-kind system.

Just to give you an idea, how would you like to...

- **Avoid paying high cost per click** and getting low conversions by marketing in over-competitive niches. There are TONS of less competitive niches around and you'll **learn exactly how to find them!**
- **Start finding MASSIVE amounts of 'under-discovered' keywords** that you can focus on...dominate your market and slaughter your competition!
- Have the power to determine what the maximum Cost Per Click you should pay is BEFORE you begin promoting a product.
- **STOP getting high ad impressions and low click-through-rates.** The ONLY solution to this problem is to track ACTUAL KEYWORDS search engine visitors use to arrive on your website or landing pages. **You'll even discover a way to track the REAL terms used when click throughs come in from a broad match!**
- **And lots more...**

"Whether you're an experienced Adwords Advertiser or a complete beginner...this is the most comprehensive Adwords and pay per click education and tool-set you'll ever find on the internet...I Guarantee IT!"

Now...Picture for a moment...that you didn't own a single product or just never created one (maybe that's you right now) and you had to make money to survive...what would you do?

Sounds like a sad situation right?

Contrary to what you may have been taught, the fact is - that the above situation puts you in a **position of power** not at a disadvantage!

You see in the offline world, there are people that accept this situation everyday and they never even think twice about it.

Best yet, you probably know everyone of them.

Just think...do these names ring a bell?

And that's just naming a few!

Can you just imagine having the power to never have to create a product of your own, sell only products that meet your standards and **make a tremendous profit** just like the companies above?

These companies have successfully created a system of attracting people (traffic) who have a need or want, offering and selling other people's products to them in their stores and **making a nice profit**.

The only problem is that they generally own what they buy and have to sell their inventory or lose money.

But you don't need to worry - you don't have that problem!

With what we reveal to you in this amazing system -

"You will learn how to create your own virtual (yet almost invisible) profit-pulling store-shelves of digital or physical products, attract hungry customers who want them and then compelling them to buy those products...all on autopilot!

Not only that but you'll spend only pennies to get the customers and you never need to handle customer service or pay any employees...because you don't have a visible business."

Just picture -

Working Less Than 10-15 Hours A Week and Still Making a Six-Figure Income!

Nope, I'm not screwing with you on this one either and there's no hype in what I just said and here's why...

"You are only moments away from unearthing the best-kept secrets of **Google Adwords, pay-per-click advertising, and even affiliate marketing and copywriting**, so keep your eyes glued to this page. You won't find this insider information anywhere else on the Web, Why? Because the internet marketing industry doesn't want you to find out. If everybody knew these secrets it would cost the industry millions of dollars in lost **Fluff and Puff** product sales!"

After all, lazy wealth has become an obsession for me as it will soon become one for you!

Besides I hate going through the **non-stop pain** of product fulfillment and writing product copy (although I actually love writing copy) and dealing with the rare customers that verbally abuse my staff even though they love the product. (Don't ask...)

It often becomes profitable but pointless so - *Why not work more efficiently and effectively while working far less because you're -*

Automatically:

- Generating tons of targeted **"money-in-fist"** traffic.
- Building a **highly responsive** subscriber lists at lightening speed and cheaper than almost any other method.
